April 27, 2009

To whom it may concern:

My name is Wayne Chang and I am the President of SandRidge Midstream ("SD"). I am writing this letter as a notice of recommendation for the support and utilization of IAG's services. SD has contracted IAG's services for two rebuild projects since July of 2008. Both projects were at natural gas treating facilities and required a fast-track repair and rebuild to expedite natural gas sales. IAG's personnel have exhibited a high level of professionalism, competency and commitment to customer satisfaction and service. SD has been very pleased with the outcome of the plant rebuild projects as both were done within IAG's estimated costs for completion and both plants were restarted within IAG's projected completion dates and SD's expectations.

SD has also contracted IAG as the Project Management Firm to build the Century Plant Project, which is estimated to cost approx. \$900 MM. The plant is expected to be operational by mid-2010 and thus far, IAG's performance as Project Manager has been positive. SD anticipates IAG will continue to be a valuable partner as SD grows its business in the future.

If you have any questions, please do not hesitate to contact either Clay Midkiff, SD's Director of Engineering or me. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Chang", is written over a light blue horizontal line.

Wayne C. Chang

President
